

How Do I get Around This Site?

Along the top of the site you will see a title bar that identifies the main areas of our site. Imagine each title as that of a book on a shelf, with each book full of its own information.

When you click the book title with your mouse the index of the book will appear down the left-hand side of the screen. The index reveals the chapters inside the book you have chosen. As you click a chapter title all the sections within the chapter will be revealed.

As you click the chapters and sections of the book the pages of the book will be displayed on the right hand side of your screen. You will notice that the book titles will remain visible for the majority of your visit to the site.

If you get lost at any stage just click on the book title and skip down through the chapters until you find your page of interest.
